

Multi Power Carbide Wheel 5" x 0.045 x 7/8

item # 68200002

General-purpose cut-off wheel for effective cutting of many different materials, such as **wood** with **embedded nails**, **plastics** (e.g. pipes), **non-ferrous metals** and **drywall construction materials**. The cutting edge made of sharp tungsten carbide grains achieves clean, precise cuts.

Special features

Ideal choice for a variety of materials.

Optimum cutting speed due to consistent diameter and high ease of cutting.

Made in Germany.

Long service life due to unique high-quality bonding of the tungsten carbide grain to the steel body.
